

## INTEGRATED QUALITY, SAFETY, HEALTH AND ENVIRONMENTAL (QSHE) MANAGEMENT POLICY

We at Emami Cement Limited are committed to implement Quality, Safety, Health and Environmental management systems and continually improve our operations. We are committed to drive growth through Customer Orientation, quality and innovation in products and services by deploying all our resources and capabilities towards realizing this goal which ensures delivery of 'Ummeed Se Zyada' to customers exceeding their expectations and fulfillment of applicable compliance obligations. This commitment would be demonstrated in:

- **S**trength to carry out environment friendly and safe plant operations which will fulfill compliance and contribute wholeheartedly towards the environment and society.
- **P**rocess improvements resulting in enhanced product quality, on time delivery and competitive edge.
- **R**esource management strategies aimed to optimize the use of raw materials, water, energy consumption and effective waste recovery & control, resulting in sustenance.
- **I**nstilling a safety culture rooted in comprehensive risk assessment and effective operational controls among employees, contractors and other Business Partners.
- **N**urturing of our processes and integrating them with the principles of Management systems, ensuring protection of environment, prevention of pollution and occupational ill health & injury.
- **T**raining and capability building of Emami cement team and raising awareness level of all the stakeholders.
